

# Sports Liability Insurance

## Sports liability

Sports liability insurance is essential, especially within an increasingly litigious society where the possibility of being sued is as high as ever. As specialists in offering sports liability insurance we understand the risks that sports clubs, businesses and individuals can be exposed to and have developed insurance products which meet these needs. Our policies are tailor made for sports risks to provide protection for those who are held legally liable for causing 3<sup>rd</sup> party personal injury or damage to property.

## Protecting your advice

Our sports liability insurance automatically includes an advice inclusion which covers an individual against damage caused or arising from any instruction or advice given. This is particularly relevant if you are a sports coach or business as your day to day work will involve coaching or instructing clients. If you imagine one of your clients injures themselves following your advice the first person they will hold accountable is likely to be you. Without this type of cover a claim made by a client against you could become costly.

## Building & contents

Regardless of whether your team is professional, semi professional or just a Sunday league team DareDirect provides building and contents insurance against perils such as fire, flood or vandalism.

## Sports Equipment

At DareDirect we provide insurance for all types of sports equipment against loss, damage or theft saving you the additional costs of repairing or purchasing new equipment. So whether you are looking to cover studio cycles or portable goals posts we can cater for your needs.

## Security

All our commercial policies are underwritten at Lloyds of London and regulated by the Financial Services Authority (FSA - firm number 309959). This is backed up by Lloyd's impressive chain of security so you can rest assured that you have the quality security that you need from your insurer.

## Our Promise

We don't believe that sourcing specialist insurance needs to be a complex, drawn out process. This is why we have worked hard to make the process as easy as possible. We make buying insurance simple, with online forms, quotes and purchasing in a few clicks.
